

Setting up Outlook for iOS (Apple) and Android is a snap:

- Add an Exchange account in Outlook for iOS or Android (download in the App Store)
- Enter your interWaysMAIL address and password
- click on continue
- in the new windows, enter the server name: ssl.interways.de
- Domain: Enter the part behind the @ in your email address
- User: enter the first part in front of the @ in your email address

You're done.
