Please synchronise your device with your computer before continuing! The iPhone/iPad will delete all existing contacts and calendar entries when setting up sync service.

- **Setting up your iPhone/iPad for interWaysMAIL Push:**

- Go to Settings --> Mail, Contacts, Calendar
- Add Account
- Microsoft Exchange
- Email: Your interWaysMAIL-Address (e.g.: name@interwaysmail.com)
- Domain: the part after the @ sign (e.g. name@interwaysmail.com becomes here: interwaysmail.com)
- User name: yourname (yourname@interwaysmail.com must be: yourname)
-
- Password: Your password
- Description: interWays push
- "Continue", wait a few seconds (if a certificate error pops up please "Cancel")
- Enter server address: ssl.interways.de
- press "Continue", wait a few seconds
- Click "Save"
- Done! Within the next minutes, your iPhone/iPad will load all mail, contacts and calendars stored in Webmail, Outlook, Apple Mac, Linux etc... (if installed)

- You can even sync contact photos to and from your iPhone/iPad!
