Outlook:

Please run a full backup of your data before proceeding: Go to File --> Import/Export --> and exprot all folders into a .pst file on your PC. Then:

- 1. Close Outlook and restart the PC
- 2. Install our newest connector which can be found here.
- 3. Go to Control Panel --> Email (or Mail) --> Show profiles
- 4. Create a new profile (name does not matter)
- 5. Within this new profile, please add a Mail account with --> Additional Server Types --> "Zimbra Collaboration" or "interWaysMAIL"
 - 6. Set that profile as default profile
 - 7. Close all windows and start Outlook
 - 8. The new sync can take several hours, depending on amount of data

Zimbra Desktop:

Please export/back up your data first before proceeding:

Delete the account from Zimbra desktop and enter it again. Zimbra Desktop should start pulling the data from the server. This might take several hours, depending on mailbox size.
